Thought for the Day

Team sports teach us something about collaborating in life:

We all need to learn to co-operate with each other and work together to have maximum effect.

We are all unique and we all have our individual skills and roles to contribute.

We need to think about others and remember that everything we do or don't do affects everyone else.

We need to learn how to handle winning, losing and our emotions in life.

Moment of reflection:

What do you have to offer to your family, your school, your friendship group?

Prayer

Say: "If you want to make this prayer your prayer, say Amen at the end."

Teach us to work together and grow together in both good and bad times.

Help us to think of others and so be good teammates in life's journey.

May we offer our gifts and talents to make things better for others.

Amen.
